

SEONGJOO MIN
University of California, Berkeley, Ph.D. Candidate

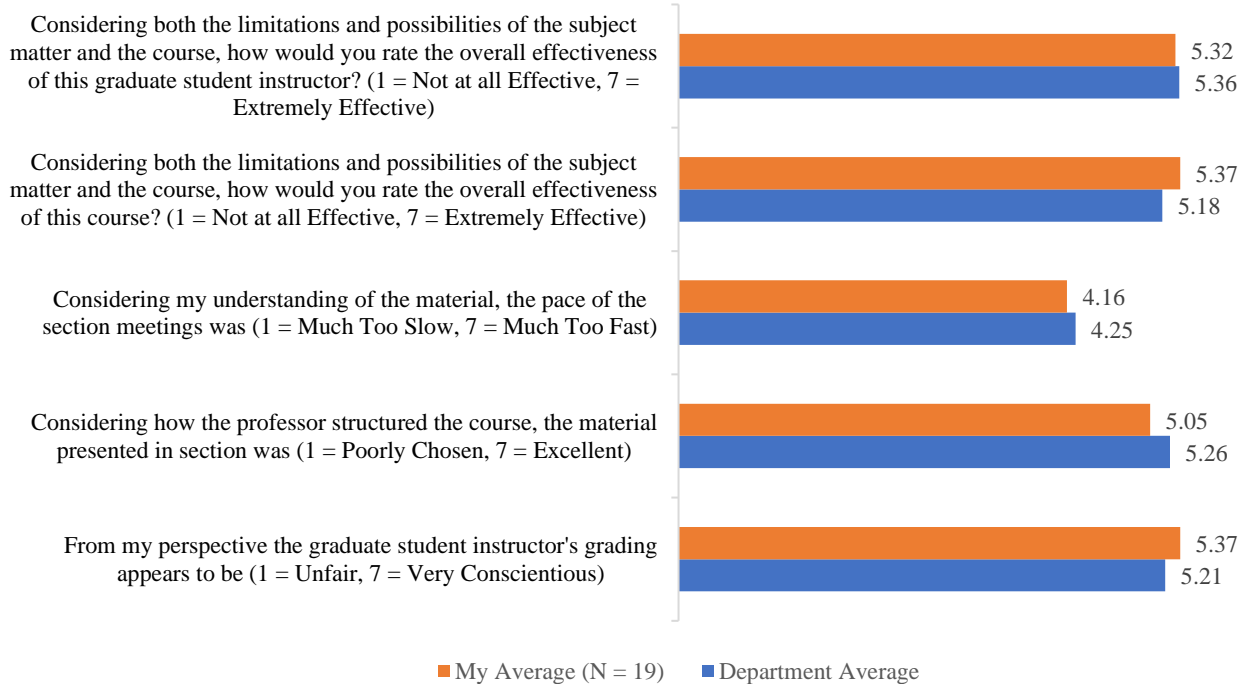

SUMMARY OF TEACHING EVALUATIONS (Last 4 Semesters)

Applied Econometrics and Public Policy (Econ 142) Spring 2018

Applied Econometrics and Public Policy (Econ 142) Spring 2017

Select feedback from student evaluations:

- “Seongjoo is incredible at translating the lectures during section. Section was very helpful. His office hours were even more helpful. One of the best GSI's at Cal. It's too bad this is his last semester teaching because he was the most approachable GSI I have had so far.”
- “Seongjoo's ability to determine the sections understanding of material and ability to clearly answer questions was his greatest strengths.”
- “I think Seongjoo had an amazing understanding of the course and was able to derive tangible concepts from material that could be extremely abstract at times.”
